# CLOUD BACKUP SOLUTION

Install a backup software directly on your servers in just one click to secure your business-critical data.

## BaaS - Backup As A Service

### Cost effective

BCE's BaaS solution is a cost-effective long-term solution for any company looking to securely safeguard its data.

### 100% European company

BCE is located in Luxembourg with two datacenters enabling BCE to guarantee that all your data remains in Europe.

### -24x7- Availability

BCE has a reliable team of IT experts available 24/7 to monitor the performance of the system. Your data is accessible 24/7 from any location.

### Automatic backup

Choose the optimal time to automatically backup your data to our BCE's datacenters.

### Fully secured system

Thanks to the built-in encryption system, BCE can ensure optimal security for your data during its transfer. Once on-site, your data is then stored and protected by a fully redundant system.

### Protected data

BCE assures you that your data will be fully protected and in compliance with the GDPR standard (General Data Protection Regulation).

**This solution can also be combined with our ITStored storage solution based on S3 technology (Simple Storage Service) at 9.5 Eur per TB per month.**
